Mr. Dave Roederer  
Director  
ATTN: Tammy Winters, Personal Assistant  
Iowa Department of Management  
1007 E Grand Ave G13  
Des Moines, IA 50319

Director Roederer:

Thank you for your continued work in helping Iowans to recover from coronavirus (COVID-19). We have only just begun to invest into our communities, and I know we have a long road to recovery ahead. I am writing to request a funding summary from the Iowa Department of Management that details what has been allotted to help Iowans recover from COVID-19

As you are aware, Congress passed and the President signed into law four supplemental funding bills that will provide direct assistance to our citizens, businesses, community, health systems, and more. Much of the funding authorized by Congress was given directly to each State to distribute, including direct funding of \$1.25 billion for Iowa provided under the CARES Act passed by Congress and signed by the President on March 18<sup>th</sup>.

I firmly believe that in order to be good stewards of taxpayer funding, we must have transparency and accountability when it comes to where tax dollars are being spent. As the Department of Management prepares and executes our state budget, as required under law, as well as determines revenues estimates for the State, your Department has the unique ability to provide information about where and how COVID-19 recovery money is being spent in Iowa. It was our Congressional intent that every dollar is used to support and benefit those who are suffering the effects on COVID-19. That is why it is so important to ensure a transparent process that allows Iowans to see where these funds are being used within their communities.

I look forward to working with you and your agency to ensure Iowa communities, businesses, and families have the resources they need to stay healthy, safe, and stay afloat. That is why I am seeking answers to the following questions:

- 1) Please provide for me a) a total funding amount that Iowa has received so far from the federal government, b) a summary of that funding broken down by money received by each department, and c) a summary of where in Iowa that money was spent or given, wherever possible to record that information.
- 2) Please include a) which programs are available under your agency for individuals to use for COVID-19 assistance, b) where are the website links and relevant application information, c) who is the Agency Point of Contact (POC) to submit a question or request to, and d) who is

the correct POC that my office should speak with to ensure funding is allocated to those most in need?

3) Please outline each program, grant, loan, or other funding measure that is available for Iowans and a summary of what each program, grant, loan, or other funding measure is for.

4) Please provide as much information as possible about which businesses, communities, counties, and state agencies have received funding. This information should include locations, points of contact, what type of funding (e.g.: grants, loans), and total dollar amounts.

a. There may be circumstances where personal information cannot be released. In those cases, please provide information that does not include personal details and instead provide me with the program information and total dollar amount.

5) If there are pending applications, please provide this information as well as expected dates of those decisions.

6) If there have been denials for funding, please provide me with information on why those requests were denied.

Given the nature of this request, please respond back to my office upon receipt of this request with the expected timeline of your full response. You may contact Denise Fleming in my office at [Denise.Fleming@mail.house.gov](mailto:Denise.Fleming@mail.house.gov) or (202) 225-5476.

Thank you for your work on behalf of Iowans and helping our communities respond to COVID-19.

Sincerely,

Cindy Axne  
Member of Congress
